

WELDING CURTAINS

Defender Range

Portable welding frames & bespoke booths and curtains

The necessary solution for employee protection.

The wider frame dimension makes the Defender 300 a step up from the 100 and 200. Included with the kit is a pack of EN1598 welding strips, available in red or green. These consist of 5 strips that fasten together by click studs to its neighbouring strip, before attaching via curtain rings to the header rail.
